Assisted Reproduction

# Indian Society for Assisted Reproduction (ISAR)

## ISAR Certificate Course in Assisted Reproduction Technology (ART)

Hands on experience  
of ovum pick up, embryo transfer,  
sperm preparation, ART Lab Procedure

The highly precise field of assisted reproduction demands perfection in training to turn aspirants into thorough professionals. The ISAR-EART course is run by ISAR members who are experts in the field of Assisted Reproductive Techniques. This is an initiative to pass on the entire skill set of setting up and running an IVF center as well as an ART bank to the trainee by ways of intensive hands-on training modules.

Various modules for training for clinicians will ensure that our customized infertility training is meaningful for each trainee, from novice to those already in practice.

**If you are looking for that one course which will give you all the basics of a successful IVF program and also provide you hands on experience of ovum pick up, embryo transfer, sperm preparation, ART Lab procedure, the ISAR-EART course is what you need.**

Learn it all with an unlimited one to one interaction with ISAR's Fertility Experts, and Andrologists and Embryologists.

<b>Gynaecology</b>	Optimising IUI outcomes; transition from IUI to IVF, Identifying normal, poor and hyper-responders for COH and choosing individualised protocols; luteal phase management; prevention and management of complications in ART <b>Hands-on training of OPU &amp; ET with simulators</b>
