Late Dr. Mehroo Hansotia
From the desk of Dr. Rishma Dhillon Pai – President ISAR 2018 - 2019

Dear Colleagues,

It gives me great pleasure to present to you this ISAR NARI Registry. As you are aware, ISAR is the largest organisation of infertility specialists in India and one of the largest in the world. ISAR has more than 3500 members. ISAR has 24 chapters, one in each state of India (the north eastern states are combined) and the main union territories. Our members are all successful, busy practitioners of gynaecology and infertility with special interest in advanced ART techniques.

Unfortunately, in India we have very little reliable data available as mandatory reporting is not there. As a result, we find it difficult to present our work worldwide.

Indian data is very necessary and with this in mind, we are bringing out the registry. However, despite several requests, many ART centres did not send us their data, which reflects really badly on them.

We have tried our best. And the results are here for you to see.

I would like to thank Dr. Narendra Malhotra and Dr. Sunita Tandulwadkar for all their efforts to put this together. A very special thanks to all of you for your support and encouragement throughout my term as ISAR president.

With warm regards,

Dr. Rishma Dhillon Pai
President (2018-2019) – Indian Association of Gynaecological Endoscopists (IAGE)
President 2017 – Federation of Obstetrics & Gynaecological Societies of India (FOGSI)
Vice President- Mumbai Obstetrics and Gynaecological Society
Dear ISARIANS,

Greetings & regards

It’s indeed a great pleasure to write the message for NARI our very own data collection registry.

India is a very data rich country. We all have tremendous amount of clinical work but no or very minimum data. We in India are “DRIP” (Data Rich; Information Poor)

Proper data collection, analysis of Indian data will help all of us to plan the future of ART in INDIA. A lot of clinical management software’s are available to store the clinical data very soon Government of India & ICMR will make it mandatory to submit ART data for National Registry.

I think Dr.Manish Banker who initiated the NARI and Dr.Narendra Malhotra who successfully brought of NARI regularly and this year Dr.SunitaTandulwadker & Dr. Narendra Malhotra have done a great work to get NARI art.

I urge all ISAR member who are involved in ART to voluntary submit data for analysis. It is confidential and blinded and individual data is not shared.

Warm Regards

Dr.Jaideep Malhotra

Past president ASPIRE
Past Vice Chairman ICOG
Dear Members of ISAR

We are almost 2000 IVF clinics in India. Many are still not member of ISAR, not registered in ICMR and not contributing to NARI.

I have great pleasure in presenting this NARI registry to you with ICMR registered clinics list, ISAR contributors list.

Enjoy reading NARI

Dr. Narendra Malhotra
MD, FICOG, FICMCH, FRCOG, FICS, FAAFIAP
President ISPAT (2017-2019)
President ISAR (2016-2017)
President FOGSI (2008-2009)
Dean I.C.M.U. (2008)
Director Ian Donald School of Ultrasound. (India)
Greetings from NARI Registry.

It gives me immense pleasure to present the NARI registry of 2015-2017 along with Dr. Narendra Malhotra as a Co-Chairperson.

I wish to thank Dr. Rishma Pai, President ISAR and Dr. Hrishikesh Pai, Co-ordinator of the program for giving us an opportunity to do this essential task.

A registry by any country is made with the intention of studying the various factors involved in ART. It helps us to compare data across Asian countries and also with countries from other continents.

It allows us to have statistics of the work performed in this field in our country and to study the need/demand of ART in the country. The number of cycles performed per year in each country plays a very important role on a global scenario.

In India, there maybe about 2000 ART centers but only 102 centers have sent and documented their data. This is very unfortunate because it defeats our sole purpose of making the registry.

We herewith request all the ART centers to come forward and share their data to make a comprehensive registry.

“If you have a strong purpose in life, you don't have to be pushed. Your passion will drive you there.”

Dr. Sunita Tandulwadkar
Hon. Joint Secretary
Dear ISARians

I am extremely happy that we at ISAR are bringing out the next edition of NARI registry which is not only an important step for data collection of the IVF practices in India but also for standardisation of treatment and results.

The efforts to collect ART data from a country like India is really a huge task and I am pleased to note that this enormous task is in the responsible hands of Dr Narendra Malhotra And Dr Sunita Tandulwadkar both of whom will put in their best efforts and I congratulate them.

I sincerely request that all ART clinics should send their yearly data to NARI which will make the ART data from our country very authentic.

Dr S Krishnakumar
Sec General ISAR

### List of Enrolled Assisted Reproductive Technology (ART) Clinics under NATIONAL REGISTRY OF ART CLINICS AND BANKS IN INDIA

**Indian Council of Medical Research, Ansari Nagar, New Delhi-110029 (India)**

**Note:** Enrollment Number has been given to those ART Clinics who have successfully submitted their duly filled prescribed proforma for minimum infrastructure facilities, trained manpower and procedure being undertaken at the ART Clinic. The Enrollment Number is not the certificate of quality in regard to services provided by the enrolled ART Clinic. The information provided by the enrolled ART Clinics has not yet been verified by the Experts Committee of the ICMR. The process of verification of their claim, by the ICMR Experts Committee, is in process currently.
