

The **HOW** & **Y** of Male Infertility

-A Masterclass -

Trident, BKC, Mumbai
14th - 15th December, 2024

Message from President's Desk

Message from President's Desk

Dr. Ameet Patki

President ISAR

Dear Doctor,

ISAR has always been in the forefront of education and spreading knowledge amongst its over 6000 members.

In the first year of his Presidential year President Dr Ameet Patki has spoken at every major conference in India and abroad on male infertility with special reference to paternal ageing. This was widely acknowledged and accepted by various groups and NGOs involved in fertility advocacy.

ISAR had decided to undertake 5 masterclasses this year one amongst them on male infertility. This will be held on 14-15 December at Mumbai. We are fortunate to have **Dr. Ranjith Ramaswamy** as our international lead faculty who is matched with an equally talented national faculty led by **Dr Rupin Shah**.

Acknowledging your keen interest in this field you have been selected and invited to be part of this masterclass and Meyer Organics Ltd has kindly consented to be the educational partner. **The meeting commences at 12 noon on Saturday and finishes at 3 pm Sunday.**

We intend to use your expertise in preparing Good Clinical Practice Recommendations (GCP) in male infertility to be released at the **ISAR annual conference Lucknow 7-9 February 2025.**

Please confirm your availability so that we can move ahead with the logistic details.

Looking forward to an interesting and interactive event. ””

Regards,

Dr Ameet Patki, President ISAR

Masters of the Programme

Dr. Ameet Patki
