FIRST ANNOUNCEMENT

FOR

## CLINICIANS & EMBRYOLOGISTS

A Perfect Fusion of Clinical ART & Embryology

## WELCOME *From Organizing Team*

The Indian Society for Assisted Reproduction is the largest Fertility Society in the World established in 1991. National ISAR in conjunction with Gujarat Chapter of ISAR invite you at this national conference of Embryology with National ISAR comprising of International and national faculties of Clinicians as well as Embryologists from all over the country and abroad to participate and deliberate actively on the feast of knowledge and practical applications of embryology in the ART laboratory to achieve a final clinical outcome and take home babies so anxiously desired by the infertile patients who comprise 17% percent of population.

As is the relationship of Surgeon with the Anesthetist, for successful surgery, so is the bond between the Clinician and Embryologist for pregnancies and live births. Both are the sides of the Same Coin on whom successful fertility care depends, whether its IUI, IVF, ICSI, Cryopreservation, PGT or PGD.

The Clinicians will certainly benefit from this national conference of proven significance since held annually over India by ISAR through state Chapters, as well as junior embryologists who will learn from their seniors. Where as the esteemed faculty of Clinicians on applied embryology to suit their clinical protocols discuss, the Eminent Embryologists will place forward other aspects of embryology and its challenges with applications to partner with the clinicians in quest of excellence, that will be the driving force behind this august gathering to take place on 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup> November 2023 at the World Heritage City of Ahmedabad.

We welcome you all with open arms to enjoy and gain tremendously from this academic and practical 3 day conference on Assisted Human Reproduction, Not to miss anything besides an exotic venue, delicious Gujarati Gourmet and scintillating Cultural program.
