Dr Nishad Chimote

CO-OPTED MEMBERS

Dr Sulbha Arora

Dr Parsuram Gopinath

Dr Priya Kannan

Team Yuva ISAR 2021 is delighted to invite the Fertility Experts all over the country to a National Conference on Assisted Reproduction. This time our YOUNG BRIGADE is in the spotlight. We welcome you all to Kolkata - the vibrant cultural capital of India; to the city where Assisted Conception Treatment started its journey.

This physical conference will be held from 26 - 28 November 2021 at The Bengal Club, a 200 year old heritage institution. It would be an exclusive venue where none other than the conference delegates would be present. We shall also take necessary precautions of regular sanitisations, physical distancing and mandatory use of masks to avoid COVID 19 infection. We would like to inform you that the Government of West Bengal has allowed social gatherings with necessary precautions.

Kolkata was the first to witness the usage of HMG for ovarian stimulation in IVF, the first trans-vaginal approach for ovum pick-up, the first cryopreservation of human embryos, and the first transfer of an embryo in a subsequent untreated cycle. Professor Subhas Mukherjee, one of the pioneers of our fraternity, was the mastermind behind the birth of the world's second and India's first test-tube baby in Kolkata. Another pioneer of Infertility Treatment, Professor B N Chakravarty is also from this city and has the credit of delivering the third test tube baby in India. It was under his leadership the 3rd Annual Conference of ISAR was held in Kolkata.

The organising and scientific committee are committed to bring the best of its kind in this academic platform for Gen-Next; lined up with focused sessions on basic science, endocrinology, clinical problems, embryology, andrology, endoscopic surgery and workshops. We are devoted to stage the finest intermingling of science and arts of ART. We promised to live up to your expectations as experienced during ISAR 2018

We look forward to welcoming you all in the winter festive season of Kolkata with abundance of Science, Culture and Gastronomic Delight.
